

SAN Ladders

The High-performance rubber ladder is made on the base of a SAN fender. This implies that the ladder can also be used as fender. A great advantage is that the dimensions and hole pitch is the same as SAN fender by installation and replacement. And replaceable ladder steps

| Specification | Unit | H | a | b | L | | | | | | | |
|---------------|------|-----|-----|------|-----|------|------|------|------|------|------|------|
| | | | | | 900 | 1200 | 1500 | 1800 | 2100 | 2400 | 2700 | 3000 |
| H200 | mm | 200 | 320 | 400 | | | | | | | | |
| H250 | mm | 250 | 410 | 500 | | | | | | | | |
| H300 | mm | 300 | 490 | 600 | | | | | | | | |
| H400 | mm | 400 | 670 | 800 | | | | | | | | |
| H500 | mm | 500 | 840 | 1000 | | | | | | | | |

Other types of ladders can be quoted upon request.
The same metrics and hole pattern as the SAN fender by installation.
